

Island Pavement Cutting Co., Inc. (IPCC) is a fourth generation, family-owned company providing subcontracting services to the heavy highway, civil infrastructure, and commercial markets for more than 50 years. We pride ourselves with having the expertise to self-perform specialty services including bridge deck and foundation waterproofing systems, surface coatings and treatments, penetrating sealer of concrete and bridge deck, FRP systems, joint installation, saw cutting, core drilling and surface preparation. All work is performed by our well-trained and highly competent union labor force.

Island Pavement Cutting Co., Inc. is dedicated to providing exceptional service while delivering projects on time and within budget. We strive to be the most efficient and best at what we do. Our experience and execution with integrated projects and design-build construction provides our clients with an added advantage in the marketplace.

Certified by federal, state and county agencies as a Disadvantaged Business, Woman Owned and Small, Enterprise. We are active members in local, regional, and nationwide construction trade and business associations including Long Island Contractor's Association, Regional Alliance for Small Business and Professional Women in Construction. Mentor-Protégé program graduates of the Port Authority of New York/ New Jersey, Tishman Construction, Turner Construction, NYC Small Business Services and DASNY displays our commitment to obtaining new skills and innovation in an ever-changing marketplace keeping us current with and ongoing technology and business and business trends.
